Power BI as a Service

Take advantage of a modern Power BI service operated by specialists

The Adatis Power BI as a Service enables organisations to harness the power of data visualisation with scalable support, suitable for small teams with limited experience through to enterprises with global rollouts of Power BI. Ensuring your analytics and reporting remains trusted and relevant for all.

Power BI as a Service provides:

- › A service that fully supports your existing in-house capability without the need to provide an in-house specialist team.
- › Removes the need for you to attend to the operation of the platform and provides the support to enable self-service analytics.
- › The ability to scale up and out your own Power BI delivery and analytics capability.
- › Freedom of a monthly subscription model.

Adatis is ready to support your Power BI platform today without the need for a large resource demand from your side - with access to your environment, we are set to go.

Customised service approach

Adatis has three Service Plans which provide guidance on our comprehensive catalogue of services. We tailor the service we design and deliver serving customers with very different levels of technical competencies based on the following three levels of service. From organisations with no Power BI competencies to experts who need support with complex cases:

- › Essential Plan – Reactive Managed Service for Power BI.
- › Established Plan – Proactive Managed Service for Power BI.
- › Enterprise Plan – Managed Service for enterprise scale Power BI roll outs.

Service Plan	Essential	Established	Enterprise
Reactive Support - 3rd Line Incident Escalation and Resolution	✓	✓	✓
Virtual "Ask and Adatis Power BI Expert"	✓	✓	✓
Monitoring, including service availability, data refreshes, data issues, usage and engagement, consumption and cost optimisation		✓	✓

Cloud Solution Provider Catalogue			
Full service and licence provisioning including environment configuration and licence recommendation and management	○	○	○

✓ Included with fair usage **Call Off** Included based on procured capacity via Call Off Units ○ A cost option

All Service Plans include the option of Adatis delivery capacity to accelerate the rollout of Power BI with the flexibility of implementing changes within days or even hours. We can cover shortages in existing team resource flexibly - no need to hire a contractor. Use our team as and when you need them.

Adatis offer professional services specialising in data analytics, from data management strategy and consultancy through to world class delivery and managed services.

With offices in London, Farnham and Sofia they have been delivering innovative and successful solutions for clients since 2006.
